Feed Directions:

Lakeland 3/4" Packer Pellets is a 3/4 inch Pellet feed designed for horses packing into "Weed Free Areas". Lakeland 3/4" Packer Pellets can be used in many feeding situations. Feed 1/4# to 1 3/4# per 100lbs body weight daily. Split into two feedings. Provide fresh clean water, salt and adequate fiber (hay or pasture). This feed is also a great training aid when used as a treat.

Available in 50lb & 80lb Bags

Ingredients

Wheat Middlings, Corn, Barley, Soybean Meal, Wheat, Canola Meal, Molasses, Calcium Carbonate, Dicalcium Phosphate, Salt, Sodium Bentonite, Lignin Sulfonate, Sodium Selenite, Choline Chloride, Vitamin E Supplement, Zinc Sulfate, Ferrous Sulfate, Manganese Sulfate, Selenium Yeast, L-lysine, Copper Sulfate, Vitamin A Supplement, Calcium Propionate (a preservative), Vitamin D Supplement, Ethylenediamine Dihydroiodide, Cobalt Carbonate, Monocalcium Phosphate, Zinc Proteinate, Niacin Supplement, Riboflavin Supplement, D-Calcium Pantothenate, Vitamin B12 Supplement, Zinc Oxide, Manganese Proteinate, Thiamine Mononitrate, Menadione Sodium Bisulfite, Complex (source of vitamin K activity), Pyridoxine Hydrochloride, Folic Acid, Biotin, Copper Proteinate, Cobalt Proteinate

12-12-12 Plus Mineral

Feed Directions:

Feed to cattle at a rate of 2 oz. per head per day. Do not feed additional salt or other mineral containing salt.

CAUTION: Follow label directions. Current regulations limit supplemental selenium intake to 3 milligrams per head per day. Do not feed more than 2 ounces of this product which will provide 3 milligrams per head per day. The addition to feed of higher levels of this product containing selenium is not permitted.

WARNING: This product contains added copper. Do not feed to sheep.

This product was made in a feed manufacturing facility that does not handle or store products containing animal proteins prohibited in ruminant feeds.

Ingredients

Monocalcium Phosphate, Salt, Calcium Carbonate,
Processed Grain By-Products, Magnesium Oxide,
Molasses Products, Zinc Glycinate, Zinc Sulfate,
Manganese Glycinate, Selenium Yeast, Copper Glycinate,
Copper Sulfate, Manganese Sulfate, Iron Oxide, Vitamin
D3 Supplement, Vitamin E Supplement, Vitamin A
Supplement, Ethylenediamine Dihydriodide, Sodium
Selenite, Cobalt Glucoheptonate and Vegetable Oil.

Sweet PDZ Stall Refresher

Granulized Stall Freshner & Pet Deodorizer

The Sweet PDZ Stall Refresher is an odor eliminator that includes all-natural granular minerals used to neutralize and eliminate ammonia and odors in horse stalls and pet habitats. This odor neutralizer absorbs urine and moisture which extends bedding life. The barn odor control is safe for use with pine shavings and all bedding materials

Sweet PDZ's Unique Benefits

Organic certified, non-toxic and safe for handling

Captures, neutralizes, and eliminates harmful, smelly ammonia with no scents

Significantly better alternative to all lime product

Diminishes risk of equine respiratory issues, such as heaves and COPD

Multiple uses include household, yard, and industry (i.e. the take-up of oils and chemical spills)

Economical to use and easy and beneficial to dispose of on gardens, fields and compost

12% Plus Horse Mineral

Feed to all classes of Equine

Vitamin D3.....	Min 15,000 IU/lb
Vitamin E.....	Min 100 IU/lb

Feed Directions:

Feed Lakeland Feed & Supply 18% All Natural Horse Cooked Molasses Tub free-choice to all classes of equine. Make sure equine have adequate pasture or roughage available and are not starved for salt or minerals. Recommended consumption is 1.0 to 2.0 pounds per head per day. Consumption will vary according to the weight of horse and the quality and amount of available forage. Management of the number and location of the tubs may be required to achieve target intakes. Increase the number of tubs and move tubs closer to water or loafing areas to increase intake. Decrease the number of tubs or move farther from water or loafing areas to decrease intake. Provide at least one tub for every 10 to 20 horses.

Test your forages to determine the actual supplementation needs of your animals. Consumption over or under the recommended levels may be adequate based on nutrient needs

CAUTION: Feeding selenium at levels in excess of 0.3 ppm in the total diet is prohibited. Use only as directed.

Ingredients

Molasses Products, Processed Grain By-Products, Salt, Flaxseed, Monocalcium Phosphate, Vegetable Oil, Magnesium Oxide, Calcium Carbonate, Manganese Sulfate, Zinc Sulfate, Copper Sulfate, Vitamin A Supplement, Vitamin E Supplement, Ethylenediamine Dihydriodide, Vitamin D3 Supplement, Sodium Selenite and Cobalt Carbonate.

Feed Directions:

Feed Lakeland Feed & Supply 18% Sheep Cooked Molasses Tub free-choice to sheep on pasture or roughage rations. Make sure animals have adequate pasture or roughage available and are not starved for salt or minerals. Recommended consumption is 2 to 4 ounces per head per day. Consumption will vary according to the weight of the animal and the quality and amount of available forage. Management of the number and location of the tubs may be required to achieve target intakes. Increase the number of tubs and move tubs closer to water or loafing areas to increase intake. Decrease the number of tubs or move farther from water or loafing areas to decrease intake. Provide at least one tub for every 15 to 20 animals.

CAUTION: Care should be taken to minimize additional copper from forage, water or other feed stuffs available to sheep. Use only as directed. Feeding selenium at levels in excess of 0.3 ppm in the total diet is prohibited.

Ingredients

Corn, Barley, Oats, Soy, Canola Meal, Wheat Middlings, Beet Pulp, Alfalfa, Cane Molasses, Calcium Molasses Products, Plant Protein Products, Processed Grain By-Products, Monocalcium Phosphate, Vegetable Oil, Calcium Carbonate, Magnesium Oxide, Manganese Sulfate, Manganese Glycinate, Zinc Sulfate, Zinc Glycinate, Vitamin A Supplement, Vitamin E Supplement, Vitamin D3 Supplement, Ethylenediamine Dihydriodide, Sodium Selenite, Sodium Molybdate and Cobalt Carbonate.

Audubon Park Nyjer Feed

Audubon Park Nyjer Seed Wild Bird Food is an easy-to-eat, high-energy seed loved by a variety of small songbirds, particularly goldfinches. Rich in protein, fat, and fiber, this sought-after seed will bring all the goldfinches to your yard. Nyjer Seed can be used in specialty finch tubes or sock-style feeders.

GUARANTEED ANALYSIS

Crude Protein.....	Min 20.00%
Crude Fat.....	Min 30.0%
Crude Fiber.....	Max 21.0%

Feed Directions:

Keep a fresh supply of wild bird food in your feeders to attract a variety of birds. For best results, place different feeder types at varying heights near shrubs, trees or birdhouses that offer protection for the birds while feeding. Clean and dry feeders often to allow free flowing product and to keep toxic mold, caused by damp weather, from contaminating feed. Remember to offer a fresh source of water.

Ingredients

"Guizotia abyssinica"/Niger Seed

Audubon Park Pigeon Feed

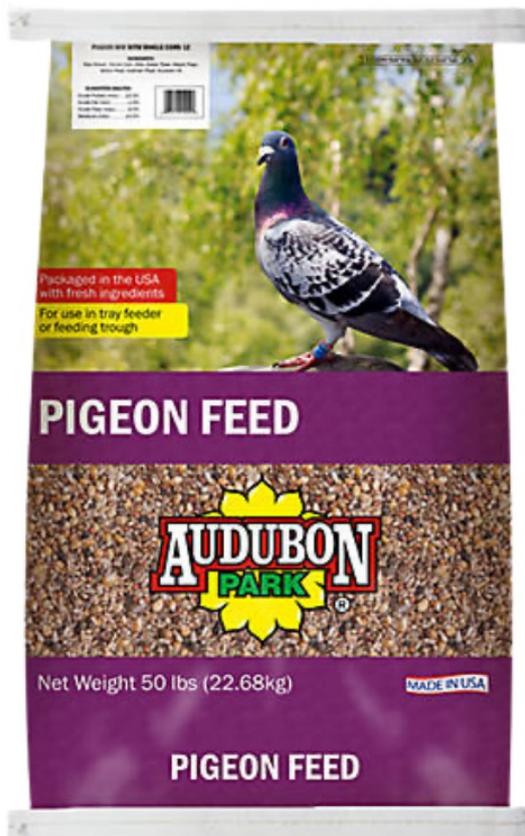

The Audubon Park Pigeon Feed with Whole Corn is 12% corn for birds to feed on! This bird food can be stored in a plastic or metal container in a cool, dry place. This food is recommend as supplementing with pigeon grit as directed.

GUARANTEED ANALYSIS

Crude Protein.....	Min 12.00%
Crude Fat.....	Min 1.0%
Crude Fiber.....	Max 9.0%

Feed Directions:

Place feed in tray feeder or feeding trough; not a complete feed; we recommend supplementing with pigeon grit as directed

Ingredients

Red Wheat, Whole Corn, Milo, Green Peas, Maple Peas, Yellow Peas, Austrian Peas, Soybean Oil

Beet Pulp Pellets

1/4" Pellet

Feed Directions:

Lakeland Beet Pulp Pellets can be fed to many species of animals. Should be soaked in water for at least 6–8 hours before feeding.

Feed Directions:

Feed to cattle at a rate of 2 oz. per head per day. Do not feed additional salt or other mineral containing salt.

CAUTION: Follow label directions. Current regulations limit supplemental selenium intake to 3 milligrams per head per day. Do not feed more than 2 ounces of this product which will provide 3 milligrams per head per day. The addition to feed of higher levels of this product containing selenium is not permitted.

WARNING: This product contains added copper. Do not feed to sheep.

This product was made in a feed manufacturing facility that does not handle or store products containing animal proteins prohibited in ruminant feeds.

Ingredients

Monocalcium Phosphate, Salt, Calcium Carbonate,
Processed Grain By-Products, Magnesium Oxide, Brewers
Dried Yeast, Dried Saccharomyces cerevisiae
Fermentation Solubles, Molasses Products, Zinc Sulfate,
Manganese Sulfate, Copper Sulfate, Zinc Glycinate, Iron
Oxide, Copper Glycinate, Selenium Yeast, Vitamin D3
Supplement, Vitamin E Supplement, Vitamin A
Supplement, Ethylenediamine Dihydriodide, Sodium
Selenite, Cobalt Carbonate and Vegetable Oil.

Big Hole Mineral

Feed to cattle on pasture or in confinement

Bitterroot Valley Soft Shavings

This 3.4 cu ft compressed bag spreads up to 8 cu ft. Perfect for a variety of farm animals, these Softwood Shavings are proudly made in the USA. Kiln dried and soft, the smaller flakes make for easier clean up.

Black Oil Sunflower Seeds

Black oil sunflower seeds are a tasty choice that help draw everything from Juncos to Nuthatches to your backyard, satisfying any bird enthusiast. This bird seed is also highly nutritious because it is so oil-rich. You can feel confident knowing the local birds are getting the protein, fat, fiber and energy they need to stay healthy all year round.

Ingredients
Corn

Daily Gold Stress Relief

Daily Gold Stress Relief is a powdered supplement for horses that is made from Redmond's very own naturally occurring bentonite clay, which contains a wide selection of minerals and elements that work together to support healthy digestion. This formula helps your horse's digestive tract work as nature intended by helping to maintain normal pH levels and buffer acid in the stomach. The unique molecules also attract and bind toxics that may cause the stomach trouble. Daily Gold Stress Relief is a great choice for horses who are under stress and for horses who have experienced occasional GI issues in the past.

Guaranteed Analysis for EquiLix50

Feed Directions:

Before Feeding EquiLix for the first time, animals should be well fed and have access to plenty of fresh water. Have one lick block available for every one to five head of horses. Provide an adequate source of good quality forage at all times (all they can eat). Place lick blocks in stalls or in pastures where horses loaf. 5. Make lick blocks available in more than one location in large pastures or where more than one water source is available. If animals run out of lick blocks, repeat from Step #1. 7. Other salt and minerals may be provided free choice to balance specific rations. A two week adaptation period will be required to establish a base consumption rate. The above feeding directions are general guidelines an will vary with the overall feeding conditions.

CAUTION: Contains 600 ppm copper. DO NOT FEED TO SHEEP!

Ingredients

Corn distillers dried grains with solubles, Corn condensed distillers solubles, Yeast culture, Salt, Monocalcium Phosphate, Diatomaceous Earth, Flax Meal, Pea Meal, Magnesium Oxide, Calcium Carbonate, Vegetable Oil, Calcium Sulfate, Potassium Chloride, Zinc Sulfate, Manganese Sulfate, Copper Sulfate, Zinc Polysaccharide Complex, Zinc Proteinate, Manganese Polysaccharide Complex, Manganese Proteinate, Copper Polysaccharide Complex, Copper Proteinate, Dried Aspergillus Oryzae Fermentation Extract, Liquid Aspergillus Niger Fermentation Product, Cobalt Carbonate, Ethylenediamine Dihydroiodide, Vitamin A Acetate (Stability Improved), Vitamin D3 Supplement, Vitamin E Supplement, Biotin.

Feed Directions:

Feed all horses good quality hay or pasture at the minimum rate of 1% of the body weight. Feed Lakeland Horse Power according to the class, weight, and activity of the horse. Use the chart on the back of this tag to estimate the amount needed to obtain and maintain the proper body condition. The amount will normally range from 0.5 to approximately 3.0 percent of the body weight. Start with the lower rate and increase the amount as needed. Feed at least twice daily. Increases to the amount fed should be made slowly. Have fresh water available at all times and feed salt free-choice.

Ingredients

Wheat Middlings, Oats, Flax, Stabilized Rice Bran, Conditioner: Montmorillonite (hydrated sodium calcium aluminosilicate), Calcium Carbonate, Salt, Dicalcium Phosphate, Monocalcium Phosphate, Vitamin E Supplement, Vitamin A Supplement, Magnesium Oxide, Zinc Glycinate, Manganese-Glycinate, Sodium Selenite, Choline Chloride, Selenium Yeast 600, Ferrous Sulfate, Manganese Sulfate, Selenium Yeast, L-lysine, Copper Sulfate, Vitamin D Supplement, Cobalt Carbonate, Zinc Proteinat, Niacin Supplement, Riboflavin Supplement, D-Calcium Pantothenate, Vitamin B12 Supplement, Zinc Oxide, Manganese Proteinat, Thiamine Mononitrate, Menadione Sodium Bisulfite, Complex (source of vitamin K activity), Pyridoxine Hydrochloride, Folic Acid, Biotin, Copper Proteinat, Cobalt Proteinat.

Feed Directions:

Feed Lakeland Feed & Supply Mega Beef Power Packed Cooked Molasses Tub with Amaferm® free-choice to beef cattle on pasture or roughage rations. Make sure animals have adequate pasture or roughage available and are not starved for salt or minerals. Recommended consumption is 0.25 pounds per head per day. A two week adaption period may be required to establish a base consumption. Consumption will vary according to the weight of the animal and the quality and amount of available forage. Management of the number and location of the tubs by the producer may be required to achieve target intakes. Increase the number of tubs and move tubs closer to water or loafing areas to increase intake. Decrease the number of tubs or move farther from water or loafing areas to decrease intake. Provide at least one tub for every 15 to 20 animals.

Ingredients

Molasses Products, Monocalcium Phosphate, Processed Grain By-Products, Flaxseed, Magnesium Oxide, Vegetable Oil, Dried Aspergillus oryzae Fermentation Product, Calcium Carbonate, Zinc Glycinate, Zinc Hydroxychloride, Manganese Glycinate, Manganese Hydroxychloride, Copper Glycinate, Basic Copper Chloride, Selenium Yeast, Vitamin A Supplement, Vitamin E Supplement, Vitamin D3 Supplement, Cobalt Glucoheptonate and Ethylenediamine Dihydroiodide.

Natural Products from our sister company: Redmond Life.

Redmond Life makes products with a short list of natural ingredients. Their natural foods are delicious. Their personal care products really work. Redmond Life products are simple, clean, and real.

Real Salt

Real Salt is the only brand of unrefined sea salt mined in America, with a complete blend of minerals and an unique flavor that is perfect for every meal. Real Salt is unlike any salt on earth – once you try the Real Salt taste test, you'll understand why no other salt sells better in America's health food stores.

Redmond Clay

Redmond Life has been selling Redmond Clay in health food stores since the 1970's, but people have been using bentonite clay for thousands of years. Redmond Clay is a unique high desert bentonite, high in both calcium and sodium.

Earthpaste

You don't need artificial ingredients to create the perfect natural toothpaste. Redmond Earthpaste and Earthpowder are made from nature's perfect polisher to get you everything you expect from a toothpaste without any glycerin, fluoride, foaming agents, or artificial coloring. You won't believe how smooth your teeth will feel!

Ingredients

Unrefined Salt

Redmond Mineral Salt Blocks

Natural Block
(44 lb)

Our premium sea salt in block form. It has 60+ naturally occurring essential trace mineral.

Selenium 30 Block
(44 lb)

Our sea salt's 60+ minerals and added levels of selenium (30ppm), copper, manganese, cobalt, iodine and zinc.

Selenium 90 Block
(44 lb)

Our sea salt's 60+ minerals and added levels of selenium (90 ppm), copper, manganese, cobalt, iodine and zinc.

Added Trace Mineral Block
(44 lb)

Our sea salt's 60+ minerals and added levels of copper, manganese, cobalt, iodine and zinc.

Sulfur Block
(44 lb)

Our sea salt's 60+ minerals and added levels of sulfur (3%).

Custom Order Block
(44 lb)

Our premium sea salt can be custom mixed according to customer specifications.

Iodized Block
(44 lb)

Our sea salt's 60+ minerals and added levels of iodine (200ppm) from ethylenediamine dihydriodide.

Cobalt Iodized Block
(44 lb)

Our sea salt's 60+ minerals and added levels of iodine and cobalt.

Redmond Mixed Mineral

SR 50 (2,000 lb)

Made from a blend of 1:1 Redmond Conditioner and our premium natural sea salt, SR 50 provides trace minerals that livestock need to be more productive, healthy and profitable. SR 50 can replace your toxin binder, buffer, and mineral supplement. This natural three-in-one product saves you money and time. It also improves feed efficiency and has been used for generations to support healthy herds.

2,000 lb Tote:

SR 50 MVP Mineral Mix (2,000 lb)

Made from a blend of 1:1 Redmond Conditioner and our premium natural sea salt, SR 50 MVP also includes an added mineral and vitamin package: calcium, phosphorous, selenium 30ppm, manganese, cobalt, copper, iodine, zinc and vitamins A, D & E. SR 50 MVP is a great foundation to your mineral program for all livestock.

2,000 lb Tote:

SR 65 (2,000 lb)

Made from a blend of 2:1 Redmond Conditioner and our premium natural sea salt, SR 65 provides trace minerals that livestock need to be more productive, healthy and profitable. SR 65 can replace your toxin binder, buffer, and mineral supplement. This natural three-in-one product saves you money and time. SR 65 also improves feed efficiency and has been used for generations to support healthy herds.

2,000 lb Tote:

SR 65 MVP Mineral Mix (2,000 lb)

Made from a blend of 2:1 Redmond Conditioner and our premium natural sea salt, SR 65 MVP also includes an added mineral and vitamin package: calcium, phosphorous, selenium 30ppm, manganese, cobalt, copper, iodine, zinc and vitamins A, D & E. SR 65 MVP is a great foundation to your mineral program for all livestock.

2,000 lb Tote:

Redmond Loose Mineral Salt

10 Fine Salt OMRI
(50 lb Bag, 2000 lb Tote, Bulk)

Our premium sea salt has 60+ naturally occurring essential trace minerals—it's ideal for all livestock. Smaller granules.

4 Medium Salt OMRI
(50 lb Bag, 2000 lb Tote, Bulk)

Our premium sea salt has 60+ naturally occurring essential trace minerals—making it ideal for all livestock. Larger granules.

Selenium 30 Salt
(50 lb)

Our sea salt's 60+ minerals fortified with added selenium (30ppm), copper, manganese, cobalt, iodine and zinc.

Selenium 90
(50 lb)

Our sea salt's 60+ minerals fortified with added selenium (90ppm), copper, manganese, cobalt, iodine and zinc.

High Iodized
(50 lb)

Our sea salt for all classes of cattle with therapeutic levels of iodine (1,500 ppm) to help treat foot rot and pinkeye.

Custom Order
(50 lb)

Our premium sea salt can be custom mixed according to customer specifications.

Redmond Mixed Mineral

Beef & Goat Mineral Mixes

Beef Mineral Mix (50 lb)

Fortified with added phosphorus, calcium, selenium (60ppm), manganese, cobalt, copper, iodine, zinc and vitamins A, D & E.

Goat Mineral Mix (25 lb)

Fortified with added phosphorus, calcium, selenium (60ppm), manganese, cobalt, copper, iodine, zinc and vitamins A, D & E.

Goat Mineral Mix (5 lb)

A smaller package of our fortified sea salt for goats. Ideal for smaller herds.

Conditioner

Conditioner

(50 lb Bag, 2000 lb Tote, Bulk)

Redmond Conditioner is a great foundation to your mineral program. It can replace your toxin binder, buffer, and mineral supplement—saving you money and simplifying your life at the same time. This three-in-one product also improves feed efficiency. If there is one Redmond product we would not do without, it would be Redmond Conditioner. Conditioner is for all classes of livestock and has been used for generations to support healthy herds.

NATURE
MADE SOMETHING
better
THAN
BICARB

Redmond Udder Mud

UDDER RUBS

Udder Mud (16 oz Tube or 1 gal Bucket)

A 100% natural rub that draws heat and swelling out of the udder—using a blend of clay and essential oil to promote healing.

Case of 12 Tubes: 328000

(UPC) 758364328000

Redmond Soil Program

Add Sea Minerals Back Into Your Soil

Premium Sea Salt & Conditioner

Healthy soil uses a natural blend of minerals (macro nutrients, secondary nutrients, micro nutrients and rare earth nutrients) to support crops. Over time, soil loses these minerals due to plant production and erosion.

Centuries of erosion and volcanic activity have redeposited these minerals into salty bodies of water.

When an ocean or sea dries, it leaves behind mother nature's best depository—a rich collection of all the minerals needed to replenish soil—including the rare earth nutrients. Almost 60 years ago, we found the mineral-rich remains of an ancient sea near Redmond, Utah. Nearby, we also found thick layers of volcanic ash.

We gather both the salt and the volcanic ash via separate operations. We package these resources individually but also offer a blended combination. It's a simple way that you can return the trace minerals back into the soil—all 60+ of them.

Safflower Seeds

Safflower seeds are the preferred seed of the larger birds, the classic Cardinal, the beautiful Blue Jay and Doves however, smaller birds find this seed to their liking. Safflower Seed is very effective when used by itself or in a mix. This is an energizing grain with very high oil content. Most importantly the squirrels are not attracted to the bitter taste and odor of the safflower seed which helps deter them from your feeders.

Ingredients

Dried whey, dried whey protein concentrate, dried whey product, dried skimmed milk, animal fat (preserved with BHA and BHT), coconut oil, L-lysine, taurine, lecithin, dicalcium phosphate, calcium carbonate, vitamin A acetate, vitamin D3 supplement, vitamin E supplement, thiamine mononitrate, ascorbic acid, calcium pantothenate, niacin supplement, riboflavin, biotin, menadione sodium bisulfite complex (source of vitamin K activity), pyridoxine hydrochloride, folic acid, vitamin B12 supplement, choline chloride, calcium silicate, zinc sulfate, manganese sulfate, copper sulfate, ferrous sulfate, cobalt sulfate, potassium sorbate, citric acid, ethylenediamine dihydroiodide, selenium yeast, natural and artificial flavor.

Sav-a-Lamb Milk Replacer

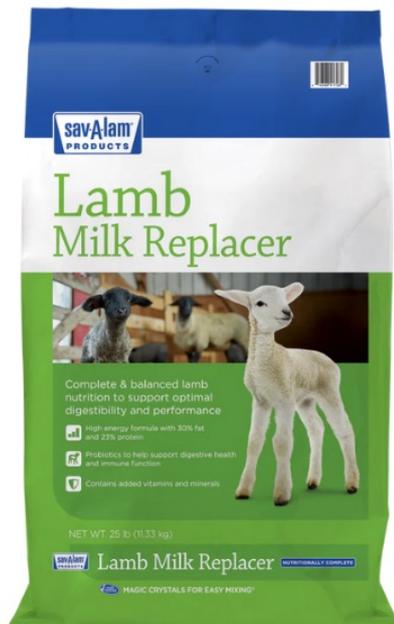

Sav-A-Lam® Milk Replacer is complete and balanced nutrition that provides lambs with the energy, nutrients, and immune support they need to grow. Comprised of a high energy fat and all milk proteins, with a blend of vitamins, minerals and organic selenium, this milk replacer gives your young ones the strong start they deserve.

GUARANTEED ANALYSIS

Crude Protein.....	Min 23.00%
Crude Fat	Min 30.00%
Crude Fiber.....	Max 0.15%
Calcium	Min 0.60%
Calcium	Max 1.10%
Phosphorus.....	Min 0.70%

Feed Directions:

Lakeland Feed & Supply Stress Tub is designed for self-feeding to weaned calves and feedlot cattle. Provide free choice as a supplement to arrival or weaning calves at the rate of 15 to 25 head per tub.

Place tub(s) near areas frequented by cattle, such as watering locations, shade or loafing areas.

Consumption may vary depending on number of head per tub, climate, grazing conditions, condition of cattle and/or availability of other feeds. Cattle typically consume 0.25 to 0.75 pounds per head daily.

Consumption of 0.75 pounds per head per day will provide 3 grams of Celmanax® SCP and 7 grams of Availa®-4. Provide free access to fresh, clean water at all times.

CAUTION: Contains copper. Do not feed to sheep. Feeding selenium at levels in excess of 0.3 ppm in the total diet is prohibited. Use only as directed.

Celmanax® SCP is registered trademark of Vi-Cor®
Availa®-4 is a registered trademark of ZinPro Corporation.

Ingredients

Vitamin E (min).....	100 IU/lb
Saccharomyes Cerevisiae (min).....	10 million CFU/gm
Glucosamine HCL.....	1,100 mg/lb

Feed Directions:

Never feed more than 5 pounds per meal, always wait 4 hours between meals of 4-5 pounds.** Feed at a rate to maintain a healthy body condition along with good quality hay or pasture. Start by feeding 5 lbs./head/day and after 2 weeks adjust up or down depending on body condition, this will provide Glucosamine at a rate of 5,500 mg/head/day. For horses with dental problems or who are unable to graze on pasture or hay, SuperSenior can be fed as a complete feed; however, offering long stem forage is still preferred. To feed as a complete feed, start by feeding 12-14 pounds per day in several feedings. Adjust this amount up or down after 2 weeks depending on body condition. To make a mash, add 1 cup water per 2-3 pounds Super Senior pellets. There are no known negative issues with feeding high levels of Glucosamine to horses

Ingredients

Alfalfa, Wheat Middlings, Beet Pulp, Molasses Vegetable Oil Blend, Flax, Canola Meal, Soybean Meal, Vegetable Oil, Forage Products Salt, Sodium Bentonite, D-Glucosamine Hydrochloride, Lignin Sulfonate, Sodium Selenite, Choline Chloride, Vitamin E Supplement, Zinc Sulfate, Ferrous Sulfate, Manganese Sulfate, Selenium Yeast, L-lysine, Copper Sulfate, Vitamin A Supplement, Calcium Propionate (a preservative), Vitamin D Supplement, Ethylenediamine Dihydroiodide, Cobalt Carbonate, Zinc Proteinate, Niacin Supplement, Riboflavin Supplement, D-Calcium Pantothenate, Vitamin B12 Supplement, Zinc Oxide, Manganese Proteinate, Thiamine Mononitrate, Menadione Sodium Bisulfite, Complex (source of vitamin K activity), Pyridoxine Hydrochloride, Folic Acid, Biotin, Copper Proteinate, Cobalt Proteinate.

Feed Directions:

Before feeding SweetPro* FiberMate 18 lick blocks for the first time, animals should be well fed. Provide access for animals to have plenty of clean, fresh water at all times. Provide an adequate source of good quality roughage and forage at all times (all they can consume) Have one lick block available per 25 head of beef or dairy cattle. Place lick blocks near water sources or areas cattle frequent regularly. Make lick blocks available in more than one location in large pastures or where more than one water source is available. Other salt and minerals may be provided free choice to balance specific needs. A two week adaptation period will be required to establish a base consumption rate. After adaptation period, recommended range of intake is .75 to 1.25 lbs./hd/ day. Once animals consistently consume more than 1.25 lbs./hid/day, transition to SweetPro FiberMate20.

CAUTION: Contains 600 ppm copper. DO NOT FEED TO SHEEP!
Do not use in association with another feed containing supplemental selenium.

Ingredients

White Millet Seeds

Whole Barley

Can be fed to many species or class of domestic animal.

Feed Directions:

Lakeland Whole Barley can be fed to all domestic and wild species of animals and birds. In most cases, processing, i.e. rolling or grinding will make it more digestible.

Ingredients

Barley

Whole Corn

Can be fed to many species or class of domestic animal.

Feed Directions:

Lakeland Whole Corn can be fed to many domestic and wild species of animals and birds. It will work best with animals that finely chew or grind their food. Examples: Sheep, deer, turkeys, and pheasants.

Ingredients

Corn

Whole Oats

Can be fed to many species or class of domestic animal.

Feed Directions:

Lakeland Whole Oats can be fed to many domestic species of animals.
Most whole oats are used to feed horses.

Ingredients

Oats

Whole Wheat

Can be fed to many species or class of domestic animal.

Feed Directions:

Lakeland Whole Wheat can be fed to many domestic species of animals. However most whole wheat is fed to fowl. Chickens, turkeys, pheasants and ducks have the ability to eat whole grains and grind them in their gizzard. Note: Fowl in captivity should be offered grit separate from their food.

Ingredients

Red & White Wheat
